

TABLE LINEN: SIZE GUIDE

A guide to selecting the right linen for your tables.

Cloths are available in square, rectangular or circular formats; rectangular or circular cloths work best for our oval tables.

All dimensions are in inches as this remains the 'currency' of table cloth hire.

The height of a standard table is 30".

Requirements

Table linen may be required if you are planning:

- dining at Homme the night before the wedding, for formal seated dining in the Main House or Garden
- reception drinks in the Garden (usually 1-2 trestle cloths)
- a tea & coffee station (1 trestle cloth), rather than served to the dining tables
- evening food, if a separate station is planned rather than re-using one of the dining tables
- any other separate tables e.g. for displaying a wedding cake in a marquee

Source

Some caterers will organise the linen required. If you plan to organise the linen directly, it can be sourced in one of two ways:

- via a catering hire company e.g. Hampton Hire, Glos Hire, Plato, Tipples
- via a linen specialist e.g. Special Occasion Linen, 88 Events

Linen napkins can be arranged via the same sources.
